

Coffee & Coolers

Office Coffee Service

Storm Associates, LLC. offers all kinds of Office Coffee Service.

Office Coffee Vending

We offer all the brand names in coffee: Starbucks, Folgers, Eight O'clock, Sara Lee, and many other options.

The main types of coffee service that we offer are:

Tassimo The latest in technology is the Tassimo t-disc single cup brewer that offers awesome taste, and the ultimate in brewing convenience for large and small places of business. This method avoids burned or old leftover coffee.

Generic single cup pod brewers These machines can also brew a single cup of coffee from various makers (i.e. Keurig) of coffee pods that produces a single cup of great tasting coffee. This also avoids burned or old coffee from brewing the entire pot.

Thermal Pots Thermal pots receive brewed coffee from a traditional coffee brewer that brews a pot at a time. However, with the thermal pot, the coffee does not burn, and stays fresh and hot for hours. This is also a great option for very busy locations.

Coffee & Coolers

Water Coolers

Storm Associates, LLC. offers several type of water coolers, from stand up to countertop water coolers that offer the latest and greatest in purified waters.

There are 2 basic types of water coolers:

1. Bottles that are delivered, that you put on top of the cooler,
2. Point of Use water coolers. With these, we plumb in the water line to a filtration system at the cooler, and the water is purified before it goes into the cooler, that assures you a great tasting cup of purified water each and every time.

Both Hot and Cold taps are available on all these models. Whether you want to quench that thirst with a super hot drink or cool off with a chilled drink we have you covered.

Storm Associates, LLC. Water Coolers help quench your thirst...literally.
